2023.03.28: The next chapter begins: Official inauguration of new plant in Pune!

Ecoclean Pune has officially inaugurated its new manufacturing plant in a grand ceremony held earlier today. The ceremony was attended by several dignitaries, including the company's directors Ralf Diemel, A. R. Narasimhan and Mangesh Agarwal, along with all HODs, and other important guests as well as the most important stakeholders i.e., employees of Ecoclean.

The ceremony began with the curtain raising of the plant by Ralf Diemel, symbolizing the beginning of a new chapter in the company's growth story. This was followed by the ribbon cutting ceremony by the Managing Director, Mangesh Agarwal, which marked the official opening of the new plant.

Curtain raiser and Ribbon cutting by Ralf Diemel

Next, all the directors and HODs present at the ceremony participated in the lamp lighting ceremony. This was a significant moment, as it symbolized the company's commitment to its values and principles and its dedication to creating a brighter future for all.

Almost every Indian ritual begins with the lighting of the lamp. It stands for auspiciousness, prosperity, and abundance. Light brings brightness; in doing so, it dispels darkness, and we begin to see things clearly.

The directors were then felicitated by the company's senior officials, recognizing their contributions to the company's success and growth.

This was followed by speeches from the directors and HODs where they shared their thoughts and vision for the future of the company.

The event ended on a high note with a poem on Ecoclean, which highlighted the company's journey and significance of new manufacturing facility.

This was followed by a movie presentation that showcased the company's history, growth, and achievements over the years.

Overall, the inauguration ceremony was a momentous occasion for the company, and it marked a significant milestone in its growth and development. With the opening of the new plant, the company is poised to expand its operations and take its business to new heights, creating new job opportunities and contributing to the economic growth of the region.
