2023.03.10: Exciting News! Ecoclean Pune has been relocated to a new facility

We are excited to announce that Ecoclean has relocated to a new and bigger facility in Pune. The brand-new factory is located at Bhosari, one of the major industrial area in Pune. This move marks a significant milestone in our company's growth and expansion, and we are excited to share this news with you.

The new location provides us with a more spacious production facility and advanced Technology Center which includes exclusive demo machines, *Universal 81W*, *Universal 81C* for cleaning trials and advanced cleanroom set up for conducting Millipore testing and particle analysis. This will significantly give us an edge over the competitors and also enable us to serve the customers much faster with improved and precise quality.

The new facility is centrally located and easily accessible from the major industrial areas, making it convenient for customers to visit and avail of the company's services. The facility's location also allows us to easily source the material for the production from nearby area thereby improve the leadtime.

We would like to thank the SBS Ecoclean Group's management for their support and also Ecoclean Pune team who has worked tirelessly for past few weeks to ensure a smooth transition. We are confident that our new location will enable us to improve our operational efficiency, quality control, and customer satisfaction.

About the SBS Ecoclean Group

The SBS Ecoclean Group develops, produces and markets forward-looking machinery, systems and services for applications involving industrial parts cleaning, precision parts cleaning, deburring, surface preparation and surface treatment.
